
Arunkumar

 +91-9578952944 |  s.arunkumar2944@gmail.com | Trichy, India

Professional Summary

Data Engineer with expertise in **Hadoop, Hive, Sqoop, Apache Spark, Spark SQL, and AWS S3**. Skilled in processing large structured and semi-structured datasets, optimizing queries, and building scalable data pipelines. Strong background in **SQL Server, MySQL, and database integration**. Adept at performance tuning, data transformation, and delivering efficient solutions across Finance, Insurance, and Retail domains.

Core Skills

- **Big Data Ecosystem:** Hadoop (HDFS), Hive, Sqoop, Apache Spark, Spark SQL, Scala
 - **Cloud:** AWS S3, EMR deployment
 - **Data Processing:** XML, JSON, Avro, Parquet, CSV
 - **Databases:** SQL Server, MySQL, Stored Procedures, Functions
 - **Performance Tuning:** Bucketing, Partitioning, Caching, Memory optimization
 - **Tools & IDEs:** Eclipse, IntelliJ, Visual Studio, Git, TFS
-

Professional Experience

Isha Yoga – Cauveri Calling Project (AGF Staff)

Trichy | Nov 2023 – Present

- Supporting project operations and applying data engineering skills to data processes.
- Receive data from google sheets and merge the data perform DSL operation and write Dashboard data to a new google sheet

Vittena Analytics Pvt Ltd – Software Developer

Chennai | Oct 2015 – Aug 2017

- Designed and optimized SQL Server queries, stored procedures, and reporting modules.
 - Supported ERP and POS applications with backend database integration.
 - Collaborated on data migration and deployment support.
-

Key Projects

Bharath Matrimony – Big Data Project (Course Project)

- Technologies: Hadoop, Hive, Sqoop, Spark SQL, Scala, AWS S3
- Implemented Spark transformations and optimized queries for large datasets.
- Processed semi-structured data (XML, JSON, Avro, Parquet) into Spark DataFrames.
- Developed Sqoop scripts for Hive–MySQL integration.
- Transferred SQL Server data to HDFS and processed via Spark for cost-efficient analytics.
- Tuned Spark performance (memory, partitions, caching) to reduce execution time.

Vittena ERP (Enterprise Resource Planning)

- Technologies: ASP.Net, SQL Server, SSIS
- Designed backend modules for Inventory, Purchase, and Finance.
- Optimized SQL queries and implemented stored procedures for reporting.

VPOS (Vittena Point of Sales)

- Technologies: ASP.Net 4.5, C#, SQL Server, WPF, XAML
- Developed Windows-based POS application for stock, purchase, cash management, and pricing.

Education

- **MCA** – Jamal Mohammed College | CGPA: 7.06 (A++) | 2015
- **BCA** – St Joseph College | 2011
- **HSC** – Govt. Hr. Sec. School, Thiruvellarai | 2007
- **SSLC** – Govt. Hr. Sec. School, Thiruvellarai | 2005

Additional Information

- Languages: Tamil, English
 - Strengths: Problem solving, analytical thinking, data optimization, team collaboration
-
